CARGO PACKING RECOMMENDATIONS

- Shipment must not protrude beyond the pallet.

- The corners of the shipment must be additionally reinforced with vertical edge guards, which can be made of paper, cardboard or metal, depending on the nature of the load.

Raben

- Do not overload pallets. The maximum possible pallet height for terminal transport is 220 cm.

- Heavier than 30 kg shipments must be loaded on the pallet. Depending on the size of the load, the pallet may be larger / smaller than the EURO pallet.

Raben

- When loading boxes on a pallet, evaluate the weight of the boxes so that the upper boxes do not compress the lower boxes.

- Secure the shipments to the pallet with straps or straps that cover the pallet itself.
